KANASU VINAY

Computer Science Engineering Student | Software Developer Intern | Power BI & Data Visualization

kanasuuvinay@gmail.com | +91 63632 32558 | linkedin.com/in/kanasu-vinay-522600290 | Tiptur, India

PROFESSIONAL SUMMARY

Computer Science Engineering student (CGPA: 8.20) with hands-on experience as a Software Developer Intern at Cyient, where I worked with Power BI to build dashboards and visualize employee data for business reporting. Skilled in Python, JavaScript, and SQL, with strong front-end and back-end fundamentals and a growing focus on data visualization and business intelligence. National and state-level hackathon winner with a track record of building functional AI-driven applications, including a deepfake detection system and an AI academic planner. Seeking software development and Power BI/data analytics roles where I can apply my technical and analytical skills to solve real-world problems.

TECHNICAL SKILLS

- **Business Intelligence:** Power BI (Dashboard Development, Data Visualization, Report Building), Data Analysis
- **Programming Languages:** Python, C, Java (Basics), C++ (Learning), Data Structures & Algorithms
- **Web Development:** HTML, CSS, JavaScript, Front-End Development, Back-End Basics, SQL & Database Connectivity
- **AI & Tools:** Prompt Engineering, AI-Assisted Development, Automation Tools, API Integrations
- **Soft Skills:** Teamwork, Leadership, Communication, Time Management

INTERNSHIP EXPERIENCE

Software Developer Intern — Cyient

July 2026 – August 2026

- Worked on employee data as a Software Developer Intern, using Power BI to build and maintain interactive dashboards for business reporting.
- Developed an Employee Utilization Dashboard in Power BI to visualize workforce data and support data-driven decision-making.
- Gained hands-on experience in data visualization, dashboard design, and report building using Power BI in a live business environment.

PROJECTS

Study Buddy – AI Academic Planner | Scaler School of Technology Hackathon

- Built an AI-based academic planner that generates personalized study schedules, quizzes, and flashcards for students.
- Led the complete UI design, structure flow, and feature functionality of the application.

AI Deepfake Detection System | AI-Thon – State-Level Hackathon (1st Place, ₹10,000 Prize)

- Built an AI system to identify deepfakes, edited photos, and manipulated videos, winning 1st place at a state-level hackathon.

Smart Audit & Tax Compliance | Unisys Innovation Program (National Level)

- Designed an AI-powered auditing concept covering GST filing, fraud detection, and compliance checks.

Vintech Tiptur – Laptop Shop Website

- Designed and built a website for a family-owned laptop shop to showcase products and services online.

Find My Nest – Rental Finder

- Built a rental-search web application covering front-end, back-end, and database connectivity.

EDUCATION

Bachelor of Engineering (Computer Science & Engineering) — Kalpataru Institute of Technology (KIT), VTU

CGPA: 8.20 (6th Semester)

Pre-University Course (PUC) — 80%

10th Standard (CBSE) — 87.4%

LANGUAGES

Kannada | English | Hindi
